GENERAL INFORMATION					FINANCIAL& EXPORT DATA		
Registered Number	368-81-01544	Established Year	2019	Certifications	ISO9001/ISO45001/ISO14001	(mil US\$)	
HQ location	Uiwang-si/Korea	Overseas Sales Office & Plant	- Office : Frankfurt (Germany), LA (USA) - Plant : in progress	Number of employees (*R&D)	80(10)	Annual Sales	2,200,000
						Annual Exports	-
							9,500,000
SALES INFORMATION							
Major sales region (%)	Korea (100%)		Major customer (%)	Hyundai & Kia (38%), Webasto (30%), CATL/SK ON(3%), Individual Customer for Battery pack repair (8%), Other Automobile Tier 1 or 2(19%)		Major products (%)	EV Battery Remanufacturing(38%) Battery module/pack development and quality analysis service (45%) Battery logistics (17%)
PRODUCT INFORMATION							
<div> <div>Stock</div> <div>Failure Cause Analysis</div> <div>Assemble & Disassemble</div> <div>Final Inspection</div> </div>				<div>✓ For OEM(Warranty repair) & Car Owner (Accident repair)</div> <div> - POEN's customers have saved about 20 million Euro during 4 years with 1,500 units remanufactured battery pack. - We collect breakdown or broken old battery packs. We analysis exact failure reason and check the parts which is reusable. - Reassembly the battery packs as a service part for replace when customer should replace their EV battery pack because of disorder and accident. - Before to delivery to clients, POEN conduct reliable and qualified inspections. POEN's remanufactured battery also provide our own warranty. - POEN is the global leader of EV battery remanufacturing. </div>			
EV Battery Remanufacturing Service				<div>✓ For OEM, Tier 1,2 and Battery Cell Maker</div> <div> - POEN develops battery module, pack and parts. - Many Korean Tier1,2s request EV module and pack developing including design, prototype and evaluation. - With Webasto which is German Tier1, Poen have developed battery module and packs of 4 EV models for Hyundai / Kia's R&D Stage(T-CAR and Proto). - Expanded application of finished product inspection software developed by our company to mass-produced products . - Possesses manufacturing capabilities such as design / evaluation / production technology </div>			
Battery Development				<div>✓ For OEM, Tier 1,2 and Battery Cell Maker</div> <div> - Quality analysis and response agency. - Battery module & Cell and FPCB quality analysis. - Global major cell makers, tier1 and OEM request Problematic battery's quality to POEN. </div>			
Battery Quality Evaluation							
COMPANY OVERVIEW				Competitiveness & Sales Points			
<p>At POEN Co., Ltd. we are a forward-thinking startup dedicated to generating a positive impact by regenerating discarded resources. Our innovative approach centers around battery upscaling technology. This technology allows us to transform batteries, typically used once and then disposed of, into remanufactured products ready for reuse. This process not only extends the life of batteries but also embodies our commitment to resource recycling and sustainable practices. POEN Co., Ltd. aligning with this vision, is committed to creating an eco-friendly vehicle ecosystem.</p> <p>POEN Co., Ltd. established POEN Europe GmbH for expanding Positive Energy.</p>				<p>The best partner of OEM and Tier1,2s regarding battery developing and maintenance.</p> <p>We are establishing our own German factory for remanufacturing EV battery which is discarded in EU area. With remanufactured EV battery, customer can save a lot of money when they need to replace their battery pack by accident or breakdown. POEN has supplied about 2,000 units of remanufactured EV battery during 4 years. This proves POEN's quality, capacity and trust from global OEMs.</p> <p>To remanufacture the EV battery, POEN have developed fundamental technologies about battery. OEM, Tier1, and Tier2 can smoothly research & develop what they want for battery with POEN.</p>
